

In business in Utah since 1987—Founder, Russell Despain, has gained the reputation of a “miracle worker” with his artistic, unique and efficient methods of wood damage repair.

We hope you don't see our work

Our goal is to repair your doors, architectural woodwork, cabinets, and furniture with such expertise that you won't be able to see our repair.

Satisfied Customers

“To Russ, nothing seems impossible...others tried to repair the damage but were unable to do it to our satisfaction.”

Bill also stated:

“Watching Russ turn unsightly damage into a like-new appearance was magical. He accomplished the work in a way that far exceeded our expectations.”

— Bill Smith, President Big-D Signature Corp.

“I was completely amazed. Some of the doors at the Utah Cultural Celebration Center were prepped incorrectly--leaving gaping holes. After the repairs, there were no signs of holes.”

— Chad George, Security/Door Specialist
West Valley City, UT

Why repair instead of replace?

1. Save money.

The cost of tearing out woodwork or replacing expensive furniture usually far exceeds the cost of repair.

2. Clean and quick.

Repairing eliminates the mess and need for disposal of old doors, furniture or woodwork. Our proven and efficient methods ensure minimal inconvenience.

3. Quality craftsmanship.

We have over 40 years of woodworking experience. Our specialized skills are tried and proven.

4. Fix irreplaceables.

We can repair your irreplaceable woodwork.

Russell G. Despain

“Damage, unaddressed, encourages more damage.”

— Russell Despain
